"Earl Marble" Gives His Views of Victoria in Detroit "Free Press."

I was not favorably impressed with Victoria. It was raw and cold. I was there six days and wore an overcoat every night, though it was in August. The sun shone twice during the six days, and then for only a part of the day. They told me so much cloudy weather during the day was exceptional.

The city has many Americans in it, and some of them like it, while others do not. I was talking with a party of several on the street one day, when one said to another:

"But they have splendid fruit here, at any rate. Such grapes and peaches and plums!"

"Yes," growled the other; "but where does the fruit come from? Do you know?"

"N—no," was the reply

"From San Francisco—every blessed bit of it that is good for anything, excepting the apples."

I do not know how true this was; but it was very effective, and shut up the Victorian completely.

I was amused at the way they run the post office. I wanted some stamps, and the clerk gave me my entire money's worth when I handed him fifty cents, though I only asked for forty cents' worth, saying he could not make the change any nearer. If he had been a Yankee postmaster, I should have thought he was trying to enlarge the revenues of his office in order to get an increase of salary.

Another time I went I had no Canadian money. He would not take Yankee money, but said I could get it changed at the express office across the street. I brought back a Canadian dollar and handed it in, and, on leaving the window, noticed that the clerk who would not take United States money had given me two Yankee dimes in change. Of course I couldn't "go back" on the money of my country, and refuse to receive it; but it was funny all the same. I'll bet a Canadian dollar (with a big discount on it) that that clerk is a son of a Yankee settler in Victoria.

The population of Victoria is about 10,000, including English, Yankees, Chinese, Indians and so forth. It has a very solid, stable look, to which several flourishing-looking banks contribute. One of the best theatres I ever visited in a city of the size is a well-patronized institution, and I saw a very good play.

The English flag floats over Victoria; but there is a good deal of "American" push and drive about somethings there in, notably in the crowd of ill-mannered, vociferous hackmen at the steamboat landing. I suppose it is "American," too, that there should be ten breweries, as many wholesale liquor stores, forty-five retail bars, and twenty "groceries" where liquor is sold by the quart, more or less, to a population of 10,000! There are two bookstores (probably this error is due to the fact that only two bookstores advertise in THE TIMES.—ED. TIMES,) in the place and badly patronized ones at that, though they vary their book offerings by notions of various kinds, from shawl straps to fancy articles, to aid in creating an interest in literature!

The Chinaman seems to have a firm foothold here in a domestic capacity. "John" does nearly all the cooking, errand going, laundry and other work of a similar nature, even to "tending the baby," and generally, I am told, does his work well, though there is a violent prejudice against him, mainly among the working classes. There is a sort of a Chinese psper here, too.

On the whole, Victoria is a queer city.

But here I am at the end of my journey, on the shores of the great Pacific Ocean; and here naturally my sketches end, and here our little party dispersed to go their several ways, the portly Judge remarking as he said good-bye:

"Those mountains you see in the distance are Uncle Sam's. Thank God I'm so near home again."

The Threatened Rabbit Plague.

It now appears that the threatened importation of 2000 rabbits to this province is coming from Liverpool, Mr. Cross, the well-known naturalist of that city, is the gentleman who is working up the scheme. In a recent conversation with a *Pall Mall Gazette* representative, when discussing the subject of an order which he had just received from New Zealand for ferrets for the purpose of destroying rabbits, he stated: "I received also a large order for rabbits, and I am now getting together 2000 of them as quickly as I can. They are going to British Columbia, where they have not got any rabbits. I am sending 2000 of them—1500 does and 500 bucks. This is a pretty large business also. They will want a hundred sacks of oats at least during the voyage, besides plenty of hay, straw, and sawdust. Mr. Cross stated that he had to pay five shillings a pair for the rabbits. He was buying them from a large landlord not far from Liverpool, who has raised the price owing to the large number of men he finds it necessary to employ in order to catch them. It will take sixty men, he said, to catch these 2000 rabbits for me by the time specified.

The Dry Dock Suit.

The case of McKenna et al. vs. McNamee et al. was argued in the Supreme Court, Ottawa, on the 20th ult. In this case the plaintiffs appealed from the decision of the High Court of Justice dismissing a judgment obtained by them against the defendant. The latter, on the February, 24, 1882, contracted with the government of British Columbia the Esquimalt Graving Docks, for which they were to receive $360,000. By an indenture entered into on 29th July, 1882, the respondents to take the appellants into their employment for the completion of the work and to pay them 90 per cent of what the government agreed to disburse to them. The respondents, it was alleged, failed to carry out the agreement and the respondents entered a suit for $100,000 for breach of agreement, and $25,000 for the work done and service performed. Respondents in reply asserted that the appellants handed the work over to other parties, and such slow progress was made by them that the government took it out of their hands. It was also contended that when Mitchell went to British Columbia, he spent only a short period of time in respondent's work, devoting the greater part to his own business. Argument was proceeding when the court rose.

The C. P. R. Hotel.

Mr. Sweet, the lately arrived manager of the new C. P. R. hotel, at Banff, discovered a great flaw in the construction of the hotel in that the plan did not contain a drawing room and sitting room for the guests. Strange that such a thing could have been overlooked. Many great changes will be made in the building.

Financial Excitement in Toronto --The Federal Bank in Jeopardy--Destructive Fires.

Premier Mercier Has a Relapse --The Quebec Loan a Failure A Factory Floor Falls.

LATEST FROM TORONTO.

TORONTO, Dec. 5.—Federal Bank stock declined from 90 to 76 last week. General Manager Parker publishes a circular this morning assuring the shareholders that the depression is altogether unwarranted and that the bank is in a sound and healthy condition and steadily improving in its business. It is expected the stock will go up at once.

A cablegram from Sir Alexander Galt to the *Mail* says he will return to Canada on Tuesday.

Rev. Mr. McDonnell preached to St. Andrew's Society last evening and made a vigorous onslaught on the Catholic church. He advised all St. Andrew's Societies in the Dominion to petition the Queen that the Imperial Parliament repeal the clause which gives that church the power to pursue a policy fatal to our own freedom.

Women voters are taking great interest in municipal elections this year, and are almost a unit in support of Rogers for the mayoralty, on temperance grounds. As they number 3,000, it is expected they hold the balance of power and will elect him.

The Labor Commission concluded its business here for the present on Saturday, and adjourned to meet in Windsor on Tuesday.

Judge Street was sworn in on Saturday and took his seat on the Bench.

LATEST FROM MONTREAL.

MONTREAL, Dec. 2.—It is generally believed here that negotiations in New York for the new Quebec loan or $3,500,000 have entirely collapsed. The belief is strengthened by word received from New York that the authorities of the Chemical Bank, where the loan was stated to have been deposited, know absolutely nothing about any such matter. This is generally regarded as a very serious matter, and indicates that the whole scheme is a farce.

MERCIER SERIOUSLY ILL.

Premier Mercier had improved so much up to Saturday that his speedy recovery was confidently expected. Yesterday, however, he had a relapse, and is now in a serious condition.

A GENERAL RE-ORGANIZATION.

Minister Bowell, during a recent meeting here, is reported to have hinted to his friends that a general re-organization of the cabinet would take place on Sir Charles Tupper's return from Washington.

AMERICAN NEWS.

THE FISHERIES COMMISSION.

WASHINGTON, Dec. 2.—Joseph Chamberlain and his English associates of the fisheries commission, Messrs. Waycock and Bergne, are enjoying to their fullest extent these pleasant autumn days. They spend a great deal of their time in the open air. Like most Englishmen, they are fond of walking and think nothing of covering twelve or fifteen miles at a single outing. During their fortnight's stay in Washington they have visited every notable resort within reasonable distance on foot. The three gentlemen live very quietly. They do not, as has been reported, use a private dining room. They sit at the table de hote as democratically as American guests. At the Arlington, where they are staying, the three gentlemen are held in high esteem. They have no fault to find or suggestions to make. They express themselves as highly satisfied with their surroundings, and the hotel people, from all accounts, are equally well pleased with them.

THE CONCESSION TO THE CANADIAN.

CHICAGO, Dec. 2.—The differential allowed by the American transcontinental lines to the Canadian Pacific is 30 cents on first class freight from New York, and 20 cents from Chicago to San Francisco. On other freight the differences in favor of the Canadian Pacific range from 25 cents down to 5 cents.

HOPE ABANDONED.

ST. PAUL, Dec. 3.—A Winnipeg special says that all hope of any further work being done on the Red River Valley Railroad until after this session of the legislature, has been abandoned. The citizens' committee to-day passed a resolution that owing to the recent and unexplained developments in connection with the government transactions with Holt, it would decline to hand over the $300,000 donated by citizens.

THE COAST'S WANTS.

CHICAGO, Dec. 3.—Congressman McKenna, of California, who is in this city, in an interview with reference to affairs in California, said that the people wanted a Chinese restriction that amounted to a total prohibition, that the long and short haul clause of the Inter-State Act be suspended for the benefit of the Pacific slope, and, therefore, he was not prepared to say that the act would be detrimental to the interests of California.

A CITY COUNCIL IN TROUBLE.

WASHINGTON, Dec. 3.—On the petition of the mayor and members of the city council of Lincoln, Neb., now incarcerated in jail at Omaha for contempt, by order of Judge Brewer, the Supreme Court has granted an order to show why a writ of *habeas corpus* should not be issued returnable on the 12th inst.

COUN. GRANT REPLIES TO COUN. BRADEN.

TO THE EDITOR OF THE TIMES:

SIR,—In your issue of Saturday Councillor Braden kindly refers to myself in connection with the action of the Council in the Robert Walker police case, and attempts to saddle the mode of proceeding by the committee on the shoulders of the Council, inasmuch as the communication was referred to the Police Committee by that body. Anyone who knows something about municipal legislation is aware that there were three ways of dealing with the matter in Council, either by treating the application with contempt, which would be, to "receive and file;" by the Council acting at once and granting the request; or by referring the communication to a standing or select committee, to enquire and report to the Council. In the case in point the last mode was adopted, by referring it to the Police Committee. The manner of proceeding with the enquiries is not dictated to the committee by the Council, as the gentlemen who compose that committee are expected to be possessed of sufficient intelligence to know the proper course to pursue. Whether they adopted a wise one or otherwise I do not propose to say here; but from the fact that an open investigation was held, the manner of conducting the same would be a proper subject for comment by any newspaper. What I object to in this case is, the attempt to make the whole Council responsible, and particularly myself, for what was in the control of the Police Committee alone, of which I am not a member. That is, the mode of procedure.

COUNCILLOR GRANT.

AGAIN ASTRAY.

TO THE EDITOR OF THE TIMES:

SIR.—I am sorry that the management of the *Colonist* should so far forget what is due to themselves by stating in yesterday's issue that, "Last night was one of the darkest of the year, and yet not an electric light was burning." It is almost unnecessary to say to the public that the statement is positively untrue. The only way that I can account for such an error is, that there were two dinners last week, and that the staff had joined the family of "Blin' Foo."

JOHN GRANT,
Chairman E. L. Committee.

LORD LYONS DEAD.

A Great Diplomat Passes Away --His Distinguished Services in the United States.

Beach Retires---The Championship of the World to be Contested For by Hanlan.

LORD LYONS DEAD.

LONDON, Dec. 5.—Lord Lyons, British ambassador, died to-day. Lord Lyons was British Minister at Washington at the time of the Prince of Wales' memorable tour in the United States in the summer of 1860, and took a prominent part in the diplomatic controversies between the American and English Government which arose during the war of the rebellion.

THE CROWN PRINCE.

BERLIN, Dec. 3.—The latest bulletin from San Remo announces that the Crown Prince drove out to-day in a closed carriage. The weather was wet. There has been a decided diminution of the congestion of the larynx in the last few days, and nothing indicates a return of the serious symptoms which appeared at the end of October.

AQUATIC CHAMPIONSHIP.

LONDON, Dec. 2.—Advices from Melbourne say that Beach, the oarsman, has resigned the championship and retired from aquatic sporting life, and that Hanlan has challenged Kemp.

SULLIVAN'S IMPRISONMENT.

LONDON, Dec. 3.—The *Daily News* says: "The imprisonment of Lord Mayor Sullivan is a national scandal. He is a man of the highest character, both publicly and privately. The question which the people of Great Britain are asking, in shame and anger, is, 'What manner of law is this which converts such men into criminals?'"

The *Standard* says: "We are sincerely sorry for Sullivan, but if he is a prisoner the fruit is solely his own."

ARBITRARY MEASURES.

VIENNA, Dec. 5.—All the Austrian and Hungarian subjects employed in Russian provinces bordering on Galicia and Duke Vina, have been ordered to quit Russian territory before January 13th.

Entirely Out of Their Places.

The concensus of public opinion is that neither the Hon. J. H. Turner or Senator Macdonald were placed in their proper places on the toast list for the Caron banquet on Thursday evening. It is a secret to none that both are greatly admired of the American nation as the land of the free and the home of the brave. It has been suggested that the Senator should have proposed the toast of the President of the United States, to be responded to by the Hon. J. H. Turner, British Columbia's Treasurer, by whose advice and recommendation several hundred in this province found a home under the stars and stripes. These are our super-loyalist and would-be patriots. They must have winced whilst Sir Adolphe was dilating upon loyalty and annexation. Some people, however, become case-hardened and for office's sake are capable of doing many strange things; but there is not a parallel case to that of Senator Macdonald and the Hon. J. H. Turner in the Dominion. Fie on them! Sworn to be loyal to the Crown of Great Britain and the person of our gracious Queen they attach their signatures to a document which proclaims to the world at large that Canada is a land of oppression and bondage, whilst the United States is the land of the free. In no other province would Mr. Turner be allowed to hold his portfolio for twenty-four hours. It is strange that Sir John has not demanded of Senator Macdonald his resignation. Still stranger is it that the howling super-loyalist of the *Colonist* has not discovered yet that these gentlemen signed the documents we have referred to. It is a case in this instance of three of a kind—Macdonald, Turner, Higgins. What an unholy combination against their country!

Important Innovation.

An important innovation has been recently approved of by the Minister of Customs, viz., to publish from month to month decisions and rulings in reference to the tariff. It is quite reasonable to suppose that any tariff cannot enumerate all the articles which are likely to be imported during the year, and it is with respect to such unenumerated articles as the Board of Customs may decide upon that monthly decisions will be published. Mr. Bowell, in adopting this course, has conferred a distinct boon on the mercantile community, who will be able to obtain information on the tariff not to be found in the Tariff Act, but which may be of great advantage to them in their business. The Canadian decisions are in concise form and to the point, and much more easily referred to than the cumbrous Washington publication. The Minister has decided also to have published memoranda relating to other matters, such as values of goods, revenue frauds and general instructions. Copies of these rulings can be seen at the office of Mr. A. R. Milne, Customs appraiser for this port.

Seattle's Future.

Says the Seattle *Post-Intelligencer* of the 4th inst.: The *Post-Intelligencer* is a conservative journal. It is not over sanguine. It aims always to have its statements rather within than beyond the truth. It has no hesitation, however, in predicting that within two years the trains of the Northern Pacific, the Canadian Pacific, the Union Pacific, the Manitoba and the California & Oregon will be running into Seattle. Those who think that such a prediction is unjustified by the present outlook will confer a favor by bearing it in mind and asking of themselves two years hence whether or not it has been fulfilled.

The Fur Trade.

Mr. J. Hardisty, chief factor of the Hudson Bay Company, while recently in Ottawa, concerning the fur trade of the northwest, stated that furs had been very numerous up to last year, when they were shipped in large numbers from the Mackenzie river district. Since then the animal brought in has been very much smaller, but not many.

THE ROYAL MILITARY COLLEGE.

Indeed, upon the assumption of office by the present administration, the Grit press, notwithstanding its previous eulogies, was loud in its condemnation of the institution and shouted, "It must go." This is a matter of history, familiar to all who have even the slightest acquaintance with newspaper controversy at the time.—*Colonist*, Dec 4th.

We dispute the correctness of this statement, and challenge our contemporary to quote the utterances of any leading Liberal or prominent journal in the ranks of that party who advocated the abolition of the Royal Military College, or which shouted that "it must go." Unfortunately for our contemporary in matters of history relating to Canada, its readings have been somewhat contracted and hazy. In this respect it has yet much to learn. Produce your proof and verify your assertion that this is a matter of history, familiar to all who have even the slightest acquaintance with newspaper controversy at the time? Give the public names of gentlemen and quotations from their speeches, as well as the journals which shouted that "it must go," or stand convicted of again making an effort to palm of as a fact that which even the *Colonist* must be aware is another of its periodical fabrications!

RAILWAY DEVELOPMENT.

A few days since we announced that the Esquimalt and Nanaimo Railway Company would petition the Legislature at its approaching session for an act to enable the company to construct a branch from some point on the main line, between Esquimalt and Gold Stream, to a point between Pedder Bay and Otter Point on the Straits of Fuca. It is stated, on what we are bound to believe is reliable authority, that the Southern and Central Pacific Railways are acting in conjunction with the Esquimalt and Nanaimo Railway Company, the intention being to form a direct line of railway communication from this city to Portland, and all southern points, as far as San Francisco. Work will be begun simultaneously on the Straits branch of the Island Railway, and Puget Sound extension of the Central and Southern Pacific systems. It is not yet positively arranged where the terminus for the American lines will be located, although it is generally believed that Port Angeles will be the favored spot, as the line is to be carried down the Valley of the Angeles from the Columbia river, by which route it is reported a road easy of construction can be built, there being no engineering difficulty to encounter, no heavy work to overcome. A powerful ferry will transfer passengers and freight across the straits. Port Angeles is reported to be a safe, accessible harbor for steam vessels at all seasons and stages of the tide, whilst sailing craft can easily enter when in tow of tugs.

On the British Columbia side there are several good harbors, where vessels can be loaded if such a scheme would be carried out by the president of the company, as loading vessels with coal at the entrance to the Straits. The distance across the Straits is said to be some ten miles, the length of the branch about fourteen miles, making a total distance of not more than twenty-four miles by rail and ferry for Victoria to reach the American railway system. That will be accomplished in a little over an hour's time from leaving Store sreet and Portland reached in about eight hours after leaving this city. Of the benefits to be conferred on Victoria by the carrying out of the new scheme, there can be no two opinions. Victoria will then be connected with the outer world by rail. She will become the virtual terminus for the Canadian Pacific, the Northern Pacific, the Southern and the Central Pacific, as well as for the Island Railway, which ultimately will reach Cape Scott, at the upper end of the Island, and whence rapid steamers will ply to Alaskan and other northern ports. Victoria's position, already the envy of all her rivals, will be made doubly secure for the future, maintaining her status as the great shipping, mercantile, manufacturing and social centre of the North Pacific.

Every encouragement should be held out by our citizens to the people who are bringing about these important changes in increasing the facilities for reaching the capital. It is reported that beyond asking for a charter to build the line no further favor will be asked of the Province. It is especially desirable that no obstacle should be thrown in their way, as a movement is now on foot, and as certain to be carried into effect at an early day as that the sun will rise to-morrow—that of building a line from New Westminster to the boundary, there to connect with the lines running north from Seattle. From that city to Snohomish the line is graded ready for the rails, which will be laid by the SINCLAIR Company, so soon as they arrive from England; the vessel having them on board is the Cape Verde, now some 122 days out. From Snohomish to the boundary the distance is eighty-five miles, and from thence to New Westminster twelve and a half. The Seattle *Post-Intelligencer* is authority for the statement that all of the construction from Snohomish to the boundary is placed in the hands of one firm. The money is up and through trains from the Canadian Pacific to Seattle are expected by the first of January, 1889. Thus we observe that all around us every point is pushing out its arms to rake in trade and secure advantages over its rivals. Victoria, always in the van of progress heretofore, will occupy no second position in the race for supremacy amongst the sisterhood of cities, either on the Sound or in our own province. When all these contemplated schemes are carried out she will continue to be the empress city of the North Pacific, all efforts to belittle or dwarf her importance to the contrary notwithstanding.

IMPERIAL FEDERATION.

In his speech at the meeting of those in favor of Imperial Federation held in Ottawa last week, Mr. DALTON MCCARTHY, M. P., came out boldly in favor of the proposition that the people of Canada and other colonies should submit to be taxed for Imperial objects. He said, "Canadians ought to be ashamed to "think that the poorer people of the "country from which they sprang "had to bear the whole burden of "protecting our shores and mercantile marine, while we were free "from contributing to that cost." Mr. MCCARTHY admittedly is above the average as a lawyer, but as a politician and statesman he is voted as great a failure as was the late Sir MATTHEW CROOKS CAMERON, Chief Justice of Ontario. Beyond his Railway Commission Act, although he has held a seat in the Commons for close upon ten years, Mr. MCCARTHY has failed to place on the statutes of Canada any act that has been of practical benefit to the people of Canada. His utterances, therefore, on political problems do not carry much weight with the leading lights on either side of politics.

Happily for this country we have no enemies who are waiting for a chance to pounce on our mercantile marine. So long as Canada minds her own business, she is perfectly safe from entanglement in European, Asiatic or African quarrels, unless she is dragged into them through the Mother Country. Americans have not yet fought for love of glory or balance of power. The war of 1812 was not caused by anything that the Canadians of that period had done. In that war the Canadians captured Michigan and Wisconsin, but Britain ceded them back to the United States. At a later period, Britain abandoned Maine and Oregon and only a few years ago San Juan went with the rest. At the present time, Canada would certainly make an advantageous treaty with the United States, if she had only her own interests to consult. Fire from that an increase of the Canadian tariff may hurt Britain, and the fear in the United States that free trade with Canada might be used as a means to let British goods into the United States are the greatest obstacles in the way of a treaty. Mr. MCCARTHY's benevolence is overdone when he asks Canadians to pay British taxes. And has he entirely forgotten the protected manufacturers in Canada, who support his party, when he agitates for a Commercial Union between Canada and Britain? The Canadian industry that cannot withstand the free competition of the United States would be knocked into smithereens by the free admission of British goods.

PERSONAL AND POLITICAL.

The Federal Treasury Board is asking departmental heads to make up estimates of expenditure for the coming fiscal year. This indicates an early session of Parliament. It is believed Parliament will meet about January.

San Francisco is agitating for cable connection with Japan and China. Canada must not be caught napping in this connection. Cable connection means closer business relations, and more of them. Canada needs such connection, not only with China and Japan, but also with Australia.

There seems to be no doubt now that the broken down Central Bank of Toronto will be wound up. Its bills are taken at par, for its financial position is such that bill holders will be paid in full. The shareholders are likely to be called upon to pay more than the amount they subscribed for, under the double liability clause in the Canadian Banking Act.

The Haldimand election is to be contested. Corruption and crookedness on a gigantic scale has been discovered on the part of Dr. Montague and his friends. It is stated that not only will the Doctor be unseated, but that he will be disqualified personally. It appears the Liberals of that sterling Reform county are determined not to have their rights stolen from them, costly though the operation of recovering them may be.

Mr. Buckle, the present editor of the London *Times*, is a young man of the age of 25, and it is more than hinted that the eccentric conduct of the *Times* recently, is due in a great measure to the inexperience of its said editor. He has not been trained for the press, but is, on the contrary, what the Scotch call a "sticket" minister. He was not a success as a curate, nor is he a success as a journalist. For services received we read that "Lord Salisbury "has appointed the father of the editor of the *Times*—the Rev. George "Buckle, of Weston super-Mare—to "a canonry in Wells Cathedral," which means an income of $10,000 a year in addition to his living of Weston-super-Mare.

Mr. Froude, the historian, has written a letter in which he says:—"Any form of self-government which might be conceded to the Irish people, whether it be local councils or a parliament, would be used to increase England's difficulty in keeping Ireland attached to the kingdom. The Irish can be governed more easily than any other people in the world under military or quasi-military rule. The police are uniformly faithful and loyal. England has never yet succeeded in governing Ireland constitutionally, and never will."

Mr. Alex. Gibson, New Brunswick's lumber and cotton king, as well as leading capitalist, has recently pronounced himself to be strongly in favor of Commercial Union. He is a thorough-going Conservative. Hon. Mr. Chapleau has also pronounced against the movement. Mr. Gibson, who is a keen and enterprising man of business, a cotton manufacturer, lumberman and railway proprietor, who invests all his money in enterprises calculated to develope Canada's resources, declares that unrestricted reciprocity would be a great blessing to the Dominion. Mr. Chapleau, a self-seeking politician by occupation, who invests his surplus boodle in Florida and California, condemns reciprocity. Whether is the opinion of a Gibson or a Chapleau most worthy of respect under the circumstances?

The feeling of China towards England is visibly improving. After all that mischief done by opium to the celestial kingdom her statesmen have been none the less quickly to perceive that friendly relations with England should be cultivated. Her consent to a high duty on opium after a long hesitation was very pleasing to the government, and the position of England in the trade with China is a security for the continuance of friendly relations between the two countries, it amounting in the year 1885 to £26,000,000. The movement of China at the present time is a slow assimilation to the European type. She has always studied politics, and she has had political writers from the time of Confucius. Her high ethical school is opposed to free trade, and in favor of exclusiveness and isolation. The system of Confucius tends in this direction, but she is now retreating from it, and is adopting the language and attitude of a Western Power.

Not many months since our contemporary, the *Colonist*, drew a comparison between the condition of the artizan classes in the United States and in England. That was in the spring of 1886, when bread riots prevailed in the United Kingdom, and prior to the Anarchist uprising in Chicago or the great labor strikes of that year. The condition of the American working people was landed to the skies. We direct our neighbor's attention to the following, taken from a recent issue of the Montreal *Star*—a strong N. P. journal: "One cent and a half for making a pair of trousers! The woman who made the trousers was Hannah Freedman, of 195 Suffolk street, New York, and the man who engaged her was Samuel Lefkowitz, of 105 1-2 Ludlow street, in the same city. The woman made thirteen pairs of trousers, and demanded twenty cents, out of which Lefkowitz tried to cheat her. The case went before a judge—McCarthy—and the poor woman won. But only think of it—one cent and a half for making a pair of trousers! They say that there are sermons in stones. Perhaps there are, but what about the sermons that are in the needles?" Tom Hood's Sohg of the Shirt is nowhere as compared to the lesson taught in the foregoing paragraph.

What Am I To Do.

The symptoms of Biliousness are unhappily too well known. They differ in different individuals to some extent. A Bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.

The digestive system is wholly out of order and Diarrhœa or Constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try *Green's August Flower*, it costs but a trifle and thousands attest its efficacy. *

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—O. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Ealing, Richmond, Va. ††

To the Voters and Citizens OF THE CITY OF VICTORIA.

The time having come for the election of the Chief Engineer of the Victoria Fire Department I beg to offer myself as candidate for re-election.

I have served in the Fire Department in this province for 26 years and more, during 16 of which I have held office.

To the best of my ability I have rendered true and faithful service. During the time I have held the office of Chief Engineer, no disastrous conflagration has taken place. Having been chiefly instrumental in organizing the present paid fire department, to whose efficiency everybody can bear testimony, I think myself entitled to some consideration and preference at your hands.

Thanking, kindly, those who voted for me at my last election, hoping that nothing I have done since may have tended to forfeit their confidence in me, and trusting that some of those who opposed me may have found reason from my conduct during the past two years to change their mind,

I remain, respectfully,

C. J. PHILLIPS,
Chief Engineer V. F. D.

Soliciting your votes and influence,

Yours respectfully,

'SCONSET BY THE SEA.

PRENTICE MULFORD ON A PHASE OF WATERING PLACE LIFE.

Summer Camps Along the Atlantic Seashore—Quiet Charm of Nantucket—Life in the Cottage—Quiet and Unpretentious Enjoyment—Hotel Life.

There is a great change going on as regards the manner of life at the watering places on the Atlantic seaboard. It commenced some fifteen or twenty years ago, when the seaside camp meeting system begun and the Methodists and Baptists first caught the idea that they could combine religion, health, a wrestle with the ocean and a protracted meeting at one and the same time. That led to the establishment of the great denominational and religious summer camps at Ocean Grove and Asbury Park, just below Long Branch on the Jersey coast, Cottage City on Martha's Vineyard, where one-third of the Rev. De Witt Talmage's congregation have recently been rusticating and swimming, and several other smaller camps.

The Spiritualists also tumbled to this fact, and are now every summer located thousands strong at Onset bay on the Massachusetts coast and Lake Pleasant in the interior of that state, where they live in tents or cheap cottages and receive communications of all sorts through their mediums from the higher and lower heavens. In fact, this summer seaside campingg is extending and gradually filling up every convenient point on the Atlantic coast from Maine to Maryland.

ALONG THE SHORE.

Twenty-five years ago the south shore of Long Island was little occupied in this way. Today there is almost a continuous string of summer cottages, hotels and club houses from Brooklyn to the commencement of the peninsula of Montauk. The sporting clubs especially are apt to take large slices of land, and as in cases they have bought it cheap, theirs is likely to prove a good investment. Besides, it is becoming more and more "the thing" for every city man who makes any pretension to style to have his summer cottage somewhere, though it be no more than a tent with a board floor or a house wooden as to frame and covered with cotton drilling, like those we used to run up in the mines, and in which we added to the commercial prosperity of the state of California by drinking corn whisky and piling the empty bottles in cords without the door.

A yearly increasing number of people who visit the seaside during the summer have come to discard the hotel and take to the cheaper and more informal cottage. They hire them for the season, furnished. The business of building and letting furnished seaside cottages is increasing. The system is also superseding the summer hotel. People live far cheaper and, for that matter, far more informally and consequently easier at their cottages than at the hotels. They do not need to dress for dinner or other occasions two or three times a day. They bring with them their own help, buy their own provisions, cook their own meals, invite what friends they may without much additional expense, disrobe for their ocean baths at their homes, walk down to the beach in their bathing suits and walk back again dripping wet. This kind of life brings people nearer together and rubs off a good deal of unnecessary stiffness. The people who so live are by no means always those of limited means. In Underhill's system of relatively cheap furnished cottages here at Sisnsconset, he has among his tenants even New York millionaires, who take respectively for the summer little one storied, many chambered houses, which cost him, furnished, from $600 to $1,200 apiece. They are neatly and tastefully supplied with beds, all necessary crockery and cooking furniture, conveniences for washing, in fact, with everything needed for a home keeping family in a proper way, and rent from $100 to $200 for the season.

THE COTTAGE SYSTEM.

This cottage system is quiet and unpretentious. It does not take up much space in the fashionable seaside news column of the daily paper. Peter Smith, the hundred millionaire, and his family have ten times more space, ink and type given him than have 100 of the cheap cottage residents. But the mass so living in the summer by the sea is increasing, and it involves the best intelligence and sound common sense of the land, who do not come into the country to repent the formality of the city, and who can exist without sitting daily at an expensive hotel table, on which must be all possible kinds of meat, fish and game, for which earth, air and water have been ransacked; where one half the food, despite the style in which it is served, has lost its freshness from overmuch refrigeration or absorption of the conglomerate odors and flavors amid which it is cooked in the great hotel kitchen—meals served with all the formality of a high mass, and where you are tyrannized by an attendant demon of a French or colored waiter, who "sizes up" your style in thirty seconds, and is attentive in proportion to the fee you occasionally slip into his palm, while you are paying the landlord $4 a day exclusive of extras, and an extra charge for an orange threatened if you want to eat it in your room when you have an appetite for it.

Of course, there are people who like this style of living, and they should be gratified, and I am glad they are gratified, for I do love to see my fellow creatures, male, female or otherwise, enjoying life in their own way and as nature had formed them to enjoy life. Moles best love existence under ground, rats in sewers, musquitoes in swamps, and some people require more style than they do good bread and butter, and breathe in a certain sustenance and satisfaction in living up to the dress parade and formality of the fashionable watering place hotel, just as a peacock is made to feel happier and better by spreading his magnificent tail feathers or in seeing its brother peacocks spread theirs around it. This is a varied world, and a varied human and inhuman nature all about us, and everything and everybody have their places and uses.—Prentice Mulford in San Francisco Chronicle.

Magic of a Woman's Touch.

Why is a mother's hand on the head of a sick child so soothing? Because her love supplies electricity which is a curative force and a tonic. Animal electricity is an agency not so well understood as it should be by women, though they use it continually. It is erroneously confounded with the massage treatment, which is nothing more nor less than merely rubbing the entire body. Animal electricity is imparted by careful manipulation of the muscles, performed by gently stretching them with both hands. This produces an elasticity of action which causes them to rise, thereby increasing their power to act. Women, whose fingers are supple and yet strong, can best impart electricity to their children. The treatment should be applied mainly with the fingers. When the nerves are prostrated they can be invigorated in the same way. They should be gently pressed in one direction and another, which tends to increase their vitality. The general circulation can be increased by lightly moving the hands over the surface of the blood vessels, not rubbing them briskly, but using enough force to quicken the circulation. Women can become thorough animal electricians if they will but devote themselves to a careful study of anatomy. The world is full of half invalid women, who should be restored to health by this natural method. Drugs will not help them, but animal electricity applied under the right conditions will cure the individualism of the sex.—Cor. Woman's Argosy.

A Rare Chance for a Fisherman.

THE IMPROVEMENTS on a small Island situated in Departure Bay Harbor, with a two-story dwelling House, three small buildings, now used for Cook and Oil Houses, one Iron Boiler for refining oil, capacity 100 gallons; a lot of Coal Oil Tins and Oil barrels, which will hold about 2000 gallons; one 30-ton Scow, with Sails, anchors, &c., &c.; two fishing boats, 4 tons each, with oars, sails, &c., &c., &c.; seven new Dogfish Nets, all ready for use, and three secondhand Nets and a good Landing Wharf. Large Dry Dock.

A proposition is on foot in San Francisco to make the dry dock at Hunter's Point, that city, large enough to take the largest vessel that floats, by adding sixty feet, which will make it 540 feet. It will then be the largest in America.

From San Francisco.

The Mexico arrived early this morning from San Francisco. Contrary to expectations the trip was a pleasant one. She brought 16 passengers and 94 tons of freight for this port. For Vancouver there were 270 tons, and for Sound ports 840 tons.

The Weather.

The weather for thirty-six hours up to noon to-day has been uniformly boisterous, high winds and heavy showers prevailing. The lowest point reached by the barometer was 29.10. Considering the cold weather in the east we ought to take our little dose without grumbling.

Vancouver Election.

The election of a Mayor and Council was held at the city of Vancouver to-day, and as there was no talk of opposition the probability is that Mr. D. Oppenheimer was elected Mayor by acclamation and very possibly the aldermen have also had a walk over. Mr. Oppenheimer will make an excellent Mayor.

Just the Boat.

The Olympian left for the Sound at her usual hour this morning, despite the high wind and heavy sea. Capt. Roberts said "This strong wind and big sea will make her seven minutes late to Port Townsend, but she has to make one more revolution of her wheels per minute to do it."

Runaway.

A horse hitched to a dray, belonging to the Victoria Truck and Dray Company, dashed through Government street this morning, much to the alarm of the hacks. When near the Bank of B. C. a tire came off and rolled through one of Mr. Jos. Sommer's windows. No other damage was done.

Gone For Ever.

Mr. E. P. Hamilton, of Vancouver, who was reported to have been accidentally carried off on the boat to Seattle, has not returned, and his creditors are coming down upon his property "like wolves on the fold." Mr. Hamilton will not likely return. Taking contracts at unremunerative figures is the cause of his embarrassment.

Fire Election.

The election for Chief and Assistant will take place to-morrow, between the hours of 10 a. m. and 4 p. m., at the Tiger Engine house, Pandora street. The contest promises to be keen and all sorts of guesses are being made as to the successful ones. They are all good men, and with the exception of one candidate are all "old timers" of the city.

Roller Skating Rink Open Every Day.

Death of a Quebec Merchant.

A Quebec dispatch of the 27th ult. announces the death in London that day of Mr. William White, an esteemed merchant and a director of the Quebec bank. He left last month with his son Alfred, who is married to a daughter of Sir Hugh Allan, to travel in Europe for his health. Captain George Robert White, quartermaster of "C" Battery, is also a son of the deceased.

Fire Alarm.

Some miscreant turned in a fire alarm at 4.30 yesterday morning from the fire alarm box on Montreal street, James Bay. This is the third time that a false alarm came from the fire alarm on Montreal street. The firemen turned out promptly and searched the whole of James Bay ward without finding the cause of the alarm. The police should endeavor to ferret out the person who caused the false alarm.

B. C. Salmon Pack.

Mr. M. T. Johnson, of Findlay, Durham & Brodie, gives the salmon pack for 1887 as follows:

Fraser River	128,806
Skeena River	58,278
River's Inlet	11,105
Alert Bay	3,822
Total	202,011

The pack for 1886 was 163,004 cases, a gain for this year of 39,007 cases.

Bazaar.

The bazaar in aid of the orphans of St. Ann's opened to-day in Philharmonic Hall. The hall is tastefully decorated for the occasion and presents a handsome appearance. Numerous booths, where fancy work, candies and other delicacies, not forgetting a sumptuous lunch every day, line the sides of the hall. The bazaar will continue three days and evenings, winding up with a grand concert on Wednesday night, under the superintendence of Mdme. Christine De La Mothe. To gaze on pretty girls and for charity, go to the bazaar.

The Starr Estate.

The estate of Lewis M. Starr, deceased, has been appraised at $466,341.62. The trustees have received the permission of the court to expend the sum of $33,000 to fulfill the terms of a contract made by the deceased during his lifetime to purchase the Pemdan block in Seattle. The purchase price is $58,000, of which a deposit of $25,000 has been paid, and the estate holds a mortgage on the property for $20,000. W. L. Starr, a minor, who claims to be a son of the deceased by a former union, has, by his guardian, G. F. Gordon, of San Francisco, given notice that he will appear in all proceedings in the estate of the deceased. Young Starr will make a contest for the estate when it comes up for distribution.

A HOLIDAY HINT.

The Holidays are coming,
Soon business will be humming,
And all the trade that's possible
Each merchant wants to catch;
Yet if he only Knew it,
There's but one way to do it,
And that's by advertising in
One paper—THE VICTORIA DAILY TIMES.

Our merchants now are active
In making most attractive
Their windows with materials
Which no one else can match;
All this is proper, very,
And all that's necessary
To clinch the things to advertise
Each week in THE DAILY TIMES.

Each father and each mother,
Each sister and each brother,
The dollars now is saving up
By every hook and scrutch,
Let all who have a yearning
An itching and a burning
To get these dollars, advertise,
Right now, in THE DAILY TIMES.

A Doubting Thomas.

We have no desire to deprive the Victoria press of whatever comfort it may feel from the new proposal, but it seems to us very unlikely that it will ever become an accomplished fact.

Such is the opinion of that energetic and reliable journal, the New Westminster *Columbian*—the pocket organ of the Provincial Secretary—in speaking of the proposed branch to be built by Messrs. Dunsmuir, Crocker, Stanford and others, connecting Victoria with the American railway system by ferry across the Straits to Port Angeles. Our sleepy friend will waken up some fine morning and find the work as true a reality as that he is to-day a living being. It will be a cold day now when Victoria gets left, friend *Columbian*, and don't you forget it!

Chemainus News.

Mr. John Gray, proprietor of the hydraulic power at Big Bend mines, is spending a pleasurable time with his brother, Mr. Samuel Gray, at Chemainus.

Our foot ball company are practicing, and not without success. The last game was in every way a success.

Practice of the band is regular, and already there are signs of worthy competency.

Sunday's snow, to the regret of many, was of short duration. Scarcely had three inches fallen when the beautiful flakes gave place to descending rains, which, unfortunately for the youthful populace, continued until all had disappeared.

Agricultural pursuits are not on the retrograde. Mr. Conway is setting out such fruit bearing trees as are a credit to himself, and of enviable comparison with neighboring ones.

PROVINCIAL COURT.

(Before E. Johnson, Q. C., S. M.)

John Stevens, of the Half-Way House, Saanich Road, was charged with assaulting a Chinaman named Ah Tong. The trouble arose through the parties living in adjoining sections of land and a quarrel between the parties ended in Ah Tong being severely used up. Stevens was fined $5 and $2.50 costs. Mr. Thornton Fell appeared for the prosecution; Mr. Gannaway defended Mr. Stevens.

—Woodstock's building operations for the present year amount to $350,000.

—It is estimated that the lumber cut by the Chaudiere mills this season amounts to 365,000,000 feet. Very few logs are left uncut as a reserve to commence on next spring.
